Delight guests while holding down costs

FOODSERVICE SUPPLIES • CUSTOM BRANDING • QUALITY CUSTOMER IMPRESSIONS • KIDS' ENTERTAINMENT

Attract more loyal guests. Let all your guests know they are your #1!

Restaurant owner/operators keep a sharp eye on the bottom line. If there's a way to increase revenue or lower costs, they're interested. Today, Family Hospitality Group helps control costs and bring in new customers too. We like to attract the family through the youngest "destination voters".

It's no fun for anyone when kids act up. To avoid the hassle, the family may never come back. Now when you provide fun activities to keep kids busy, the family can relax and enjoy themselves. It's become an expectation of "good service" that you do this.

Our studies show that when families relax, they stay longer, spend more, and become more loyal to your business returning again and again. In fact, when you provide our child accomodation items, families with young children are 72% more likely to return.

So make your customer experience a favorite with families, increase your sales, and dramatically boost customer loyalty. Call us today at (877) 848-6923, visit familyhospitality.com or browse through this catalog to discover secrets of great family hospitality!

*As a child we all imagined a life as some type of larger-than-life hero. We played in lands with cops vs robbers, cowboys vs Indians, Autobot vs Decepticon, dreamed of making the winning shot or pitch while donning the jersey of a favorite sports team vs their rival. In those moments we were never **IMAGINING** that we were those heroes, we were **CONVINCED** that we were **actually** them.*

THAT IS THE WONDERMENT OF BEING A CHILD.

As we get older, reality sets in. We realize that we can't fly, have x-ray vision, transform in to a blue 18-wheeler, or we are not athletic enough to go to far in a sport. We come to grips that being a hero looks a lot different than it did during our hero moments as children.

In each role of life we evolved a different definition of hero. As a dad we want to be A#1 in the eyes of our kids and wife. As a mom we want to be the most loving and caring role models we can be for our families.

Business looks different to us now, but the people of this fine industry who count on us still have the desire to have the respect and admiration of peers and colleagues and to be a hero. Marketers want the power to grow sales through innovative and memorable messaging. Operations managers want the power of ease and flawless execution. Professional buyers choose the power to slash pricing and send savings straight to the bottom line.

At FHG, our fuel is to empower you, our client partners, to
NEVER OUTGROW YOUR INNER SUPER HERO.
